

# Owl Class, Year 5 and 6, Summer 2026 Part 2

## Maths:

### Year 6:

Maths Theme Projects: consolidation and problem solving.

## English:

Fiction:

Cloud Tea Monkeys: Where does Tea grow? Where does it come from? Set in a far away setting, this magical story explores the origins of tea reflecting on a different culture/lifestyle through wonderful and intricate characters. Using key year 6 SpaG devices we will design our own tea labels and fair trade tea products.

## Science:

Classification of living things, including microorganisms.

1. Names and characteristics of the main groups used to classify animals, plants and microorganisms;
2. Learn the difference between identification and classification.
3. Classification keys
4. To use standard taxonomic classification systems;
5. To conduct an experiment involving the respiration of yeast.

## Geography:

Trading and Economics

1. Investigating where products we buy come from.
2. Understanding that all products have a supply chain.
3. Investigating the UK's biggest exports.
4. Investigating the highest value exports of different countries .
5. Is the banana trade fair?
